PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience designing and scaling digital products across B2B and B2C industries, with depth in complex B2B systems. Experienced in owning end-to-end product experiences, simplifying dense operational workflows, and building scalable design systems that align user needs with business objectives. Adept at leveraging AI-assisted workflows, research, and cross-functional collaboration to solve ambiguous problems and deliver impactful product experiences.

CORE SKILLS

- **Design and Prototyping:** User Interface Design, Interaction Design, Content Design, Design Systems, Component Libraries, Data Visualization, AI-assisted Design and Prototyping, Web Design in Framer
- **Research and Testing:** Quantitative and Qualitative User Research, Usability Testing, A/B Testing
- **Design Tools:** Figma, Figma Make, FigJam, Framer, Rive, Adobe XD, Miro, Maze, Typeform, Canva
- **AI Tools:** Claude, Claude Code, Codex, ChatGPT, Gemini
- **Collaboration and Delivery:** Jira, Confluence, Notion, Slack, Loom, GitHub, Vercel, Google Workspace

WORK EXPERIENCE

Giv Healthcare - Utah, USA

Product Designer | Feb 2025 - Jul 2026

- Owned end-to-end design for scheduling and agency management workflows, simplifying complex operations across shift types, availability, payroll, billing, reimbursement, and care requirements.
- Redesigned legacy workflows by uncovering undocumented business logic, edge cases, and user pain points, contributing to a 60% increase in customer satisfaction.
- Expanded the design system with reusable patterns and design kits integrated into the codebase, improving design-to-development consistency.
- Built a Product Guide AI agent using Claude API and application context, to reduce onboarding friction and improve self-service support.

Thelix Holdings (ExcelMind) - Lagos, Nigeria

Product Designer | Oct 2024 - Feb 2025

- Spearheaded end-to-end design for two B2B edtech products, contributing to a 70% increase in customer acquisition within three months of launch.
- Created product design direction and a reusable system that became the company standard, reducing design iteration time by 40% and accelerating feature releases.
- Optimized existing onboarding and product flows, reducing new-user drop-off by 50%.

Plently - California, USA

Founding Product Designer | Jun 2023 - Mar 2025

- Founding Product Designer for a fintech platform, translating informal, trust-based group saving practices into structured digital experiences for money and savings circles.
- Owned the end-to-end design process for B2C experiences and internal tools, working with four developers and giving design direction to an intern.
- Built a scalable design system with 300+ reusable components, cutting development time by 35% across four product lines.

StarzFi - California, USA

Founding Product Designer | Dec 2022 - May 2023

- Led end-to-end design for a social networking product focused on celebrity-fan interactions; ran usability tests that generated 30 actionable insights and designed a personalized feed using behavioral data analysis that became a key product differentiator.

DeCHO - Lagos, Nigeria

UI Designer, Freelance | Sept 2022 - Nov 2022

- Redesigned the Tikka mobile ticketing application, increasing user engagement by 80%, and implemented a modular design system that accelerated development speed by 50%.
